---

**POSITION TITLE:** Software/Database Developer

**POSITION LOCATION:** Reno, NV

**POSITION DESCRIPTION:**

All duties necessary to develop, test, and deploy database solution. We are looking for candidate who are wanting to start their careers. There is real opportunity for this to transition into their "after graduation" job.

**DESIRED MAJORS:** Computer Science and Engineering

**MINIMUM QUALIFICATIONS:**

- Real go getters who want to be part of our team.
- Willingness to learn and grow.
- An understanding of data management and database structure.
- Clear, strong communication skills.
- Ability to create business rules for the data using such "high tech" processes as If/Then statements. (not exactly rocket science)
- Attention to detail of everything from data integrity to user interface and user experience. (experience with web development a plus)

**HOURS PER WEEK:** Up to 40

**SALARY:** To be Negotiated

**DEADLINE:** May 15, 2014

**HOW TO APPLY:** Via email - [doug@basebuilders.com](mailto:doug@basebuilders.com)
