POSITION TITLE: UAS Testing Program Assistant

POSITION LOCATION: Reno, NV

POSITION DESCRIPTION:

As a testing assistant for the remote testing office of a rapidly growing UAS start-up, you will have a large impact on the future of the drone industry by assisting with preparations and execution of important UAS test flights. This is a part time position with weekly hours of around 20 hours per week. Duties include, but are not limited to:

- Assist in conducting multiple weekly UAS tests, while adhering to test plans and safety guidelines
- Assist with test data organization and classification
- Contribute to the development of a healthy and product office culture
- Other duties as required

REQUIRED QUALIFICATIONS:

- A team player that is capable of following instructions and exercising safe work practices
- Strong written and oral communication ability
- Demonstrated organizational skills
- Familiar with Microsoft Office and Google Drive technology suites
- Ability to lift 50 pounds comfortably
- Excited to work in a fast-paced, collaborative, small team environment

PREFERRED QUALIFICATIONS:

- UAS mechanical ability
- Full US driver's license and access to a vehicle for transporting drones
- Part 107 Small UAS certification
- Private pilot license and/or access to small manned aircraft
- Basic understanding of C++ computer programming

SALARY INFORMATION: Hourly wage of \$12.50 per hour

HOW TO APPLY:

Interested applicants should submit resumes and cover letters to recruiting@irisonboard.com
