

# Iris Automation

<http://www.irisonboard.com/>

**POSITION TITLE:** UAS Testing Program Associate

**POSITION LOCATION:** Reno, NV

**POSITION DESCRIPTION:**

As a testing associate for the remote testing office of rapidly growing UAS start-up, you will have a large impact on the future of the drone industry by assisting with crucial data collection efforts and professionally representing the company in the booming Nevada industry. Duties include, but are not limited to:

- Assist in the drafting of detailed test plans and safety checklists
- Conduct multiple weekly UAS tests
- Assist with test data organization and classification
- Assist with managing a remote office location, including office administration and supplying
- Contribute to the development of a healthy and productive office culture
- Professionally represent Iris Automation when necessary to business partners and regulators
- Other duties as required

**REQUIRED QUALIFICATIONS:**

- Ability to meet deadlines under limited supervision
- Strong written and oral communication ability
- Demonstrated organizational skills
- Familiar with Microsoft Office and Google Drive technology suites
- Ability to lift 50 pounds comfortably
- Excited to work in a fast-paced, collaborative, small team environment
- High school diploma

**PREFERRED QUALIFICATIONS:**

- UAS mechanical ability
- Full US driver's license and access to a vehicle for transporting drones
- Part 107 Small UAS certification
- Private pilot license and/or access to small manned aircraft
- Basic understanding of C++ computer programming

**SALARY INFORMATION:** Hourly wage of \$15 per hour

**HOW TO APPLY:**

Interested applicants should submit resumes and cover letters to [recruiting@irisonboard.com](mailto:recruiting@irisonboard.com)
