POSITION TITLE: Engineering Intern

POSITION LOCATION: Reno, NV

POSITION DESCRIPTION: The Engineering Intern at PanaVise Products Inc. would be expected to work closely with product and manufacturing engineers. The job will include exposure to manufacturing processes including screw machining, metal stamping, and plastic injection molding, as well as using SolidWorks and performing routine engineering administrative functions. The position will also involve a “hands on” approach to solving problems and testing solutions. The internship will be paid and have a work schedule that will be adjusted to exist with the applicant’s academic schedule.

PREFERRED QUALIFICATIONS:
- Experience with SolidWorks
- Current Student at UNR

HOW TO APPLY: Interested applicants should send a resume and cover letter to jmello@panavise.com.
