POSITION TITLE: Electrical Engineer

POSITION LOCATION: Reno, NV

POSITION DESCRIPTION:
The Electrical Engineer will design and prepare plans, specifications, engineering estimates and analysis, material lists, and calculations for assigned engineering projects. The Electrical Engineer will also conduct concept and feasibility studies, develop criteria, and provide preliminary plans and cost estimates relative to military construction projects.

Duties will include but are not limited to:
- Perform field investigations.
- Prepare design analysis, computations, preliminary designs, final designs, compute costs, perform surveys and consultation work, prepare technical reports, and make recommendations.
- Perform ongoing inspections to determine maintenance needs. Design and prepare drawings and specifications. Develop bid packages involving subcontract work.
- Perform detailed engineering investigations and computations and makes judgments necessary to provide a completed project with appropriate drawings, specifications, or reports in support of projects. Work closely on project development with Government Staff.
- Prepare scopes of work and contractor specifications for projects. Oversee subcontracted projects. Define design parameters. Develop project proposals to obtain funding.
- Review bids, recommend contractor selections, develop presentations, maintain technical liaisons.

PREFERRED QUALIFICATIONS:
- B.S. Degree in Electrical Engineering.
  - An E.I.T. or P.E. certification is desirable.
- Must have a valid Nevada Driver’s License

HOW TO APPLY:
Interested applicants should apply online here.
