POSITION TITLE: Electrical & Control System Engineer

POSITION LOCATION: Reno, NV

POSITION DESCRIPTION:

ScadaTEC, Inc is a Software & Electrical Engineering Firm that specializes in designing automation and control systems. ScadaTEC's software products are used in the process industry. The engineer will work on a variety of tasks under the supervision of a Senior Electrical Engineer. Duties include but are not limited to:

- Communication setup & testing, between the ScadaPhone Alarm Notification software and 3rd party SCADA (Supervisory Control and Data Acquisition) software.
- Perform minor PLC Programming and SCADA software applications and configuration.
- Quality Control testing of software before a new version is released.
- Preparing draft documents that explain how various features of our software work.

PREFERRED QUALIFICATIONS:

- Minimum Senior level as an Electrical Engineer
- Strong Computer Science Interest
- Interest in learning about Factory Automation
- Knowledge of Virtual Server setup is a plus

HOW TO APPLY:

Interested applicants should send their resume to kkd@scadatec.com.
