Dynamic Isolation Systems
http://www.dis-inc.com/

POSITION TITLE: Project Engineer

POSITION LOCATION: McCarran, NV

POSITION DESCRIPTION:
Dynamic Isolation Systems (DIS) is the leader in earthquake protection for buildings, bridges, and equipment throughout the world. The company has completed 450 projects in twenty-two countries. DIS is seeking a Project Engineer to join the team. This position entails working in a small technical group to prepare designs, proposals, bids, reports, etc. Duties include, but are not limited to:

- Designing and detailing seismic isolation and damping systems for buildings, bridges, and equipment
- Reviewing and preparing isolation designs, submittals, budgets, and proposals
- Designing, detailing, and testing new products
- Interfacing with customers during project development and execution
- Preparing design submittals and test reports
- Technical support for sales enquiries
- Site support for contractors
- Production engineering support

MINIMUM QUALIFICATIONS:
- BS in Civil Engineering with an emphasis on Structural Engineering
- Must be able to become proficient with ASCE 7 IBC, and AASHTO
- Strong verbal and written communication skills; must be competent at writing technical documents and specifications
- Must be fluent in speaking and writing in English
- Strong computer skills, MS Office applications, primarily MS Excel

PREFERRED QUALIFICATIONS:
- One or two years of work experience
- Background using AutoCAD, MathCAD, Etabs, and SAP
- Master’s degree is a plus
- Second language is a plus

HOW TO APPLY:
Interested applicants should send in a resume and cover letter to personnel@dis-inc.com.
