POSITION TITLE: Design Engineer

POSITION LOCATION: Red Bluff, CA

ABOUT THE COMPANY:

Sierra Pacific Windows (SPW) was established in 1990. Headquartered in Northern California, with manufacturing facilities in Red Bluff, California; Medford, Wisconsin; and Merrill, Wisconsin; SPW is one of the largest wood window manufacturers in the United States. SPW manufactures a wide range of wood, aluminum clad-wood, hybrid, and vinyl fenestration products. SPW provides an excellent benefit package including a full Health Benefits Plan with low cost premiums, a 401(k) with Company Match, additional Retirement Contributions, and company paid Life Insurance. In addition, for over thirty-eight years, the Sierra Pacific Foundation has provided scholarships to help the children of crew members with education expenses. Each year, they give an average of \$500,000 in scholarships.

POSITION DESCRIPTION:

Sierra Pacific Windows has an opening for a design engineer. Primary responsibilities will involve engineering designs (e.g. out-of-plane and structural calculations as they pertain to product structural performance) for custom window wall assemblies and product improvements development. Additional duties may include design, testing, and analysis of new and existing window and door products.

MINIMUM QUALIFICATIONS:

- B.S. degree in Mechanical Engineering or related field
- Two years of experience in window and door design is preferred
- Experience in SolidWorks and AutoCAD is highly desirable
- Relocation to the Red Bluff area will be required
- Possess strong organizational skills as well as excellent written and oral communication skills

HOW TO APPLY:

Interested applicants should send in a resume and cover letter to Bryce Ritchie at BRitchie@spi-ind.com.
