POSITION TITLE: Designer

POSITION LOCATION: Reno, NV

POSITION DESCRIPTION:
MDU Construction Services Group is seeking a Designer to join the team. The Designer is responsible for making the company’s most important critical success factor, safety first, a priority in all tasks and activities performed by self and all others involved. The Designer is also responsible for planning and laying out fire sprinkler systems using architectural drawings and preparing calculations for construction projects. Major responsibilities and essential job functions include, but are not limited to:

- Producing accurate and effective construction plans for the purpose of generating material deliveries and field installation
- Coordinating the design with other personnel working on the same project to minimize design conflicts
- Upon completion of drawings and receipt of all required approvals, preparing an accurate stock listing of all materials required for the project and requisition same
- Preparing preliminary sketches and/or schematic diagrams for plumbing systems
- Reviewing manufacturer’s drawings with respect to the company’s design criteria
- Preparing layout, detail, and assembly drawings using Autosprink software
- Analyzing design and conferring with management to resolve details that are not completely defined
- Redesigning, modifying, or editing existing designs as needed
- Investigating and procuring all data required to develop a design
- Preparing materials lists to accompany diagrams
- Applying all preliminary information and contributing data to develop the final design
- Displaying final drawings to verify completeness, clarity, and accuracy
- Acting as a liaison between the company and the client
- Additional duties as assigned

MINIMUM QUALIFICATIONS:
- Completion of a two to four-year degree/certificate program, have two to four years of related experience and/or training, or have an equivalent combination of education and experience
- NICET Level II is a plus
- Completion of OSHA 10 hour training certification
- Working knowledge of Autosprink software
- Must have safe driving record and a valid driver’s license
- Strong organizational skills, attention to detail, and ability to prioritize and complete projects on schedule
- Ability to assume responsibility, interface, and communicate effectively with others
HOW TO APPLY:
Interested applicants should apply online.
