POSITION TITLE: Web Development Intern

POSITION LOCATION: Reno, NV

POSITION DESCRIPTION:
Noble Studios is now accepting applicants for two full-time, paid Web Development Interns in Reno, Nevada. Noble Studios will work closely with the interns, exposing them to programming and related work for a variety of clients. In this internship, the successful candidates will learn how work gets done in an agency and help create websites for clients, as well as support for the technical aspects of performance marketing services. All interns would start in late May or June and be available to work between two and three months, ideally.

MINIMUM QUALIFICATIONS:
- Senior or graduate student in an Engineering or related degree and graduating within six months with more than two years of programming experience (combination of projects, internships, etc.)
- Ability to perform job duties in an office environment during regular business hours
- Ability to pass a criminal background check if required

PREFERRED QUALIFICATIONS:
- Motivated to work in a fast-paced, digital agency environment
- Growth mindset and enthusiasm for learning
- Willingness to collaborate people across functions, levels, and disciplines and with diverse backgrounds and work styles
- Commitment to making a positive impact for customers, inside and outside the organization
- Should have a background and demonstrated interest in web development
- Proficient in standard web technologies (HTML, CSS, and JavaScript) and have a mindset for multiplatform usability

SALARY INFORMATION: Hourly wage of $15 per hour

HOW TO APPLY:
Interested applicants should send in their resume and cover letter to careers@noblestudios.com.
