POSITION TITLE: Mechanical Engineer

POSITION LOCATION: Truckee, CA

POSITION DESCRIPTION:

Bender Engineering is seeking positions for an entry-level engineer and/or an experienced engineer for full-time employment. Bender Engineering is a diversified engineering and construction firm providing residential and commercial mechanical HVAC and plumbing design, commissioning, HERS verifications, energy audits, and general contracting. Candidates should be professional in demeanor and appearance, self-motivated, and personable individuals seeking long term employment with an established company. Salary depends on experience. Essential functions include, but are not limited to:

- Working at a construction site to assist with the setup of Home Energy Rating System (HERS) verification tests
- Proficient with Microsoft Office products, including Excel, Word, and Outlook
- Assisting with HVAC and plumbing design
- Managing and documenting standard operating procedures

QUALIFICATIONS:

- Bachelor's degree required in Engineering
- Minimum of five years of design experienced for an experienced engineer
- Professional Engineering License is preferred for an experienced engineer
- EIT/FE required
- Excellent communication skills, both verbal and written
- Microsoft Office proficiency (Word, Excel, and Outlook)
- Willingness to learn energy modeling
- Ability to work in field to complete commissioning pre-functional checklists and perform engineering construction administration
- Ability to create design documents with Revit and/or AutoCAD
- Ability to work well with others and train younger staff members
- Proficient with an energy modeling program such as Energy Pro, Trane Trace, or Carrier HAP

HOW TO APPLY:

Interested applicants either send their resume to Jeff Bender at jeff@benderengineering.com.
