POSITION TITLE: Summer Intern

POSITION LOCATION: Auburn, CA

POSITION DESCRIPTION:
Intermotive Vehicle Controls is currently seeking a summer intern to join the team. Intermotive Vehicle Controls has an opening for an intern in the Engineering Department. This is a paid position and the company is looking for Computer Science and Computer Engineering majors. The company is also open to discussing this opportunity with candidates who may already have their degree, as well.

QUALIFICATIONS:
- Bachelor’s degree in Computer Science or Computer Engineering at a four-year accredited United States college or university
- Good oral and written English communication skills
- Capable of writing/editing C and Java applications running under Windows
- Basic microcontroller/hardware understanding is a plus
- Some automotive knowledge is a plus

HOW TO APPLY:
Interested applicants should send in their resume, cover letter, and unofficial transcript to Cindy Bray at cbray@intermotive.net.
