POSITION TITLE: Software Developer Intern

POSITION LOCATION: Reno, NV

POSITION DESCRIPTION:

Bombora is seeking a talented Software Developer Intern to contribute to the company's software development and technology stack. This role would be responsible for developing new products and applications, including Bombora's Enterprise SaaS UI. This is an internship position. Roles and responsibilities include, but are not limited to:

- Developing software, specifications, and technical interfaces
- Designing, initiating, and handling technical designs and complex application features
- Developing, delivering, and testing software prototypes
- Building flexible data models and seamless integration points
- Innovating and developing high-value technology solutions to streamline processes
- Coordinating with other team members, most especially engineering, development operations, product, and data science departments
- Working with an agile team to develop, test, and maintain web and service-based business built on Microsoft technologies
- Developing and unit test applications in accordance with established standards

DESIRED QUALIFICATIONS:

- Experience with any of the following: MySQL or other relational databases, DynamoDB or other non-relational databases, Visual Studio 2015, C#, .NET MVC, Python, JavaScript, or AngularJS

HOW TO APPLY:

Interested applicants should send in their resume to Lindsey Dal Porto at ldalporto@bombora.com.
