**POSITION TITLE:** Industrial Engineering Intern

**POSITION LOCATION:** Reno, NV

**POSITION DESCRIPTION:**

Gary Platt Manufacturing is the leading manufacturer of casino seating produced in their Reno, Nevada, headquarters and distributes worldwide. The company is experiencing significant growth and is seeking to fill an Industrial Engineering Intern role. Responsibilities and duties include, but are not limited to:

- Working with the CEO to help champion the 5S process and housekeeping goals
- Reviewing production schedules, engineering specifications, process flows, and other information to understand methods that are applied and activities that take place in manufacturing and services
- Figuring out how to manufacture parts or products, or deliver services, with maximum efficiency
- Developing management control systems to make financial planning and cost analysis more efficient
- Enacting quality control procedures to resolve production problems or minimize costs
- Designing control systems to coordinate activities and production planning in order to ensure that products meet quality standards
- Conferring with management personnel about manufacturing capabilities

**QUALIFICATIONS:**

- Completion of second year in engineering program
- Good oral and written communication skills
- Good knowledge of 5S processes
- Ability to work a minimum of twenty hours per week

**HOW TO APPLY:**

Interested applicants should submit a resume and salary expectation to [jemartinez@garyplatt.com](mailto:jemartinez@garyplatt.com).
