POSITION TITLE: Civil Engineer

POSITION LOCATION: Las Vegas, NV

POSITION DESCRIPTION:

RCI Engineering is a full-service civil engineering firm and has been providing land planning and design services on projects ranging from single and multi-family residences to commercial, industrial, and infrastructure for approximately ten years.

The company is seeking a mid-level Civil Engineer with experience in commercial/residential site design, infrastructure design, and production. Under limited direction, the Civil Engineer will work on a wide range of large and small site development and infrastructure projects with an opportunity to manage clients and projects. This position will manage land development projects from entitlements through construction. Responsibilities will include engineering field work, data collection, calculations, design layout as well as specification preparation, cost estimates, and report writing. Coordination with other engineers and designers while supporting Project Engineers and Managers on a variety of tasks is also included.

QUALIFICATIONS:

- Must be a registered Professional Engineer in Nevada and have between three and five years of experience
- Proficiency in AutoCAD is required and Civil 3D is preferred
- Project experience with land development is a must

HOW TO APPLY:

Interested applicants should send in a resume to Amy Armstrong at aarmstrong@rcinevada.com.
