POSITION TITLE: Environmental Health and Safety Intern

POSITION LOCATION: Carson City, NV

DESCRIPTION:
Precision Castparts Corp. (PCC), Structurals Division, is a global leader in the fast-paced, high-tech industry of investment casting. Each location plays an integral part in the manufacture of precision components for use in commercial and military jet engines as well as SpaceX rockets.

This paid intern/Co-Op role will be involved with growing our EHS program. Essential duties and responsibilities include, but are not limited to:

- You will work on job assignments related to your functional discipline in Engineering.
- Increasingly challenging assignments will provide 'real world' learning experiences.
- As a functional team member of the EHS team, you will report directly to the Operations Manager or assignee.
- Responsible for accomplishing performance goals.
- Work within specifications provided to meet project goals and objectives in a timely and accurate manner.
- Develops and implements all programs related to OSHA, EPA and DOT.
- Administers wastewater sampling and reporting.
- Reviews and may participate in completing environmental reports and permits for local, state and federal agencies.
- Performs safety and health inspections and accident investigations. Addresses employee safety concerns.
- Learn how to develop and perform training programs for OSHA and EPA issues.
- Evaluates risk management activities.
- Follows up on corrective action items from investigations, audits and hazard identifications
- May help conduct basic safety training depending on competencies
- Understand, adhere to and demonstrate the company's commitment to Safety and Quality.
- Addresses duties as assigned.

REQUIRED QUALIFICATIONS:
- Must be a recent graduate of or currently pursuing a 4 year degree program in EHS, Environmental Sciences or Engineering.

HOW TO APPLY:
Interested applicants should send a resume to Rosemarie Bliss at Rosemarie.Bliss@pccstructural.com.
