POSITION TITLE: MSTS Student Program

POSITION LOCATIONS:
- North Las Vegas, Nevada
- Los Alamos and Albuquerque, New Mexico
- Livermore and Santa Barbara, California
- Remote Sensing Laboratories at Nellis Air Force Base or Andrews Air Force Base

POSITION DESCRIPTION:
The MSTS summer schedule is designed to acclimate students with relevant work conditions, mentorship, student activities, knowledge and skill-based experiences, and peer-to-peer social and work group interactions with our own Early Career Employee Resource Group (ECERG).

Summer graduate engineering interns will work under the direct supervision of a mentor and will be provided with hands-on participation in ongoing projects at one of the most unique experimental sites in the United States, or one of our outlying locations.

DESIRED MAJORS:
Electrical Engineering, Mechanical Engineering, Chemical Engineering, Computer Science

MINIMUM QUALIFICATION:
To be eligible for this program, you must be:
- U.S. citizenship
- Current enrollment in an accredited school and successful completion of 24 undergraduate credit hours (i.e., the equivalent of full-time enrollment – 12 credit hours per semester)
- Documented acceptance into an undergraduate program and official or unofficial transcripts of your most currently completed semester
- Have and maintain a minimum cumulative GPA of 3.0 on 4.0 scale
- Pass a new employment drug test and physical: We maintain a substance abuse policy that includes random drug testing.
