NORTHWESTERN UNIVERSITY

POSITION TITLE: Research Experience for Undergraduates (REU) in Nanotechnology

POSITION LOCATION: Northwestern University

POSITION DESCRIPTION:
Explore the field of nanotechnology at Northwestern University (NU) - it's the best summer job you'll ever have!

Participants in the 9-week NU-REU Program will:
• Work full-time on a nanotechnology research project
• Have access to world-class equipment and facilities
• Enjoy research seminars and field trips
• Enhance public speaking and technical writing skills
• Participate in team events like a summer picnic, and explore Chicago

DESIRED MAJORS: Any Major in Engineering or the Sciences

MINIMUM QUALIFICATION:
To be eligible for this program, you must be:
• a U.S. citizen or permanent resident
• majoring in engineering or the sciences
• have at least one year left to complete your undergraduate degree

Women and underrepresented minorities are strongly encouraged to apply.

SALARY, WAGE AND/OR BENEFIT INFORMATION:
REU participants come from small and large schools, across the country. They receive a $4,500 stipend, plus round-trip airfare, a meal plan, and dormitory housing.

HOW TO APPLY:
To apply visit: www.iin-reu-northwestern.submittable.com
