POSITION TITLE: Designer Engineer

POSITION LOCATION: Reno, NV

POSITION DESCRIPTION:

Culture fit, smart, eager to learn, fast moving and excited! We are looking for individuals who check these boxes and have the ability to wow people with their use of SolidWorks. Clickbio designs and manufactures single-use consumables for Life Science research. If you are passionate about improving the human condition, through smarter labware by design, apply now!

When you join us at Clickbio, you'll be part of an innovative and driven team that is constantly striving to advance scientific work by making smarter tools. Our team of engineers is leading the industry in the development of new equipment for Life Sciences. International students are eligible to apply.

Key Responsibilities:

- Work directly with other engineers to design and develop quality products
- Must have expert knowledge of Solidworks.
- Ability to work at a fast pace with limited specifications.
- Product design, development and post-development analysis.
- Produce and evaluate design solutions to improve quality, performance and cost.
- Provide technical design support to sales.
- Ability to proactively coordinate multiple entities to achieve final deliverables.
- Must be able to apply fundamental engineering concepts, practices, and procedures to the relevant field of technical specialization.
- Work closely with clients within the biomedical field to deliver custom solutions
- Maintains a safe work environment and follows all safety policies and rules.

Physical Demands:

- The position requires the individual to be able to sit or stand for extended periods of time. Must be able to work in close proximity to others around various machines and in laboratory settings. In addition, he or she must be able to lift 50+ pounds.
- Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions of this position.

MINIMUM QUALIFICATION:

In order to be qualified, you must meet the following requirements:

- Bachelors of Science (B.S.) degree in Mechanical Engineering or Electrical Engineering
- 2+ years of experience, with expert knowledge of Solidworks
- On occasion must be able and willing to travel to customer locations
- Medical or Scientific industry experience preferred.
- Must be based out of Reno, NV

POSTION TYPE: Full-time

HOURS PER WEEK: 40

DESIRED MAJORS: Electrical Engineering, Mechanical Engineering.
