---

**POSITION TITLE:** Engineering Intern

**JOB LOCATION:** Reno, NV

**POSITION DESCRIPTION:**

Elemental LED is looking for an Engineering Intern during the summer of 2019. Elemental LED is a leading U.S. based engineering and technology company that creates, develops, manufactures, markets and sells innovative, configured and integrated LED lighting solutions. The Economic Development Authority of Western Nevada (EDAWN) has awarded Elemental LED as the "Company of the Year-Large" at the 7th Annual EDawn Existing Awards event earlier this month.

Some of the duties and tasks you will be responsible for:

- Perform product tests, including mechanical, electrical, chemical and materials, and optical/photometric tests.
- Assist in manufacturing process design.
- Perform quality assurance and quality control tests on outgoing and returned products.
- Document results, prepare test reports and engineering memoranda.
- Perform other duties as assigned.

**PREFERRED QUALIFICATIONS:**

- Enrollment as a Junior or Senior in a Bachelor's Degree program in Engineering, Marketing, Economics or Business Administration at an accredited college/university or equivalent training and experience.
- Previous internship experience in a corporate setting is helpful but not necessary.
- Spot on communication skills that you will help you learn how to influence others with the story of what you are seeing in the data.
- Basic knowledge of engineering principles.
- Knowledge of optics, photo metrics and LEDs are desirable, but not required.
- Deep proficiency with using Microsoft Office applications (Word, Excel and PowerPoint).
- Ability to respond to and effectively prioritize multiple tasks.
- Ability to understand and interpret engineering policies and procedures.

**DESIRED MAJORS:** Electrical Engineering, Chemical Engineering, and Mechanical Engineering
