POSITION TITLE: Manager, Computing Team

JOB LOCATION: Reno, NV

POSITION DESCRIPTION:

The University of Nevada, Reno College of Engineering invites applications for its Computing Team Manager position. The Computing Team Manager, College of Engineering provides leadership, planning, and administration for the IT infrastructure needs of the College of Engineering (CoEN). This includes organizing IT resources for teaching, research, student learning, and administrative functions in the College. The incumbent consults with faculty on their computer needs for research and facilitates the design/deployment of systems to support them. The incumbent specifies, or consults on, significant hardware purchases; manages the College’s major software license renewals and software installations; oversees the student computer labs; and supervises or coordinates efforts by the computer technical support staff for CoEN. The position serves as the college liaison to campus IT directors and implements university computing policies and security measures locally. This position reports to the Dean of the College of Engineering.

MINIMUM QUALIFICATION:

- Bachelor’s Degree and four years of professional related work experience OR a Master’s Degree and two years of professional related work experience. Relevant Experience: Setting up and managing computing systems for research purposes, high-performance computing solutions, in particular; managing software applications, including Linux-based packages; and identifying academic IT needs and coordinating resources to resolve them.
- Experience with virtualization and/or containers, networking, and orchestration or scripting is highly desired.

Total Compensation: The total compensation package includes a negotiable competitive salary, moving allowance (if applicable), a rich retirement plan, health insurance options that include dental and vision, life insurance, long-term disability, annual and sick leave, along with many other benefits. Additionally, there is a grant-in-aid educational benefit for faculty and dependents.

DESIRED MAJORS: Computer Science & Engineering
